2018.19 School Year

Wow! It is already that time of year again! Applications for the 2018.19 school year, for ASES programs district wide, will be sent home with all students the week of March 5th.

Please note that each year students **MUST reapply**. Students currently participating in ASES programs this year are **NOT guaranteed enrollment for following years**.

If you have any questions or need assistance completing the application, please do not hesitate to ask any ASES staff member.

Thank you!

Thank you, Yuri and Aiden, for your donations this last month!

Wishlist

Please keep an eye out for items we may be requesting donations of on the whiteboard near our door. Thank you for your consideration and continued support.

Important Dates

Spring

March 26th-30th
Spring Break!

Select **AM-PM** locations will be OPEN for care during this week when school and ASES "Hawk Club" are CLOSED.

Please see **AM-PM staff** for more information.

What's Happening

Mondays

We are finishing up our Publishing Unit. Please complete and return the attached permission slip for us to be able to include your student's work in our published books. **It is not required that you order** a copy, but **it is required that we have permission** to include your student's work in our class copies of the books. Students have completed either a personal narrative or a fable. **Please return permission slips by Monday, March 5th.**

Fridays

We will be offering three club options this month from 3:45-4:45pm. We have asked your students for their club preferences and we will do our best to accommodate their first choice.

Butterfly Metamorphosis

Each week students will learn about the different stages of a butterfly's metamorphosis. Through research and art, students will produce a final product of an informational booklet with all they have learned.

Soccer

Students will have fun, be engaged in STEM, learn soccer skills using fun engaging games, and develop character traits such as teamwork and fair play.

Cooking

Students will expand their nutritional education through hands-on cooking opportunities. Youth will be inspired to plan, prepare, and eat healthy meals at home and increase their confidence about food preparation and food safety.
